## WORK EXPERIENCE

---

**Internship Studio**      **Trainee**      **June 2024 – Sep 2024**

- **Face Recognition System (Internship Project)**  
*Python, OpenCV, PCA (Principal Component Analysis)*  
Completed an internship focused on computer vision, where I developed a face recognition system using PCA for dimensionality reduction. The system accurately detects and recognizes faces by extracting key features and matching them against a trained dataset.

## PROJECTS

---

- **E-Commerce Website**    <https://github.com/Aniket2790/Amazon-clone>  
*HTML, CSS, JavaScript*  
Developed a responsive e-commerce site with product listings, search/filter features, and a dynamic shopping cart using JavaScript. Focused on clean UI/UX design and DOM manipulation for interactive functionality.
- **Hotel Management System**  
*Java (Core Java, OOP Concepts)*  
Built a desktop-based hotel management system to handle room bookings, customer records, billing, and check-in/check-out processes. Implemented object-oriented principles for modular and maintainable code structure.
